

HAMPDEN

ELEMENTARY / MIDDLE #55

RIISING SIXTH GRADE SCIENCE SUMMER ASSIGNMENT

This summer, Hampden EMS 6th graders will complete a summer science project. To prepare for their first science unit, students will learn about the human eye and create a model.

Your Task:

- 1) Use the guided reading to learn about the 22 structures of the eye.
- 2) Complete page 1 by writing the function (what the structure does) for each part of the eye.
- 3) Using the color code from page 1, color the different parts of the eye. **NOTE – not all parts are represented.**

Have fun!
